The Aveda spa approach combines pure botanical products that produce results with a spa experience enhanced through touch and breathing techniques that relax your body and mind and naturally activate the body's repair and recovery mechanisms.

Recovery for your skin and body starts with a consultation. Just as your hair stylist consults with you to design your hair cut and color, your spa therapist will design a treatment for you based on the *Aveda Elemental Nature* customization philosophy. We will help you achieve balance by recommending the appropriate techniques, self care and products that are right for you.
